Transition Rule:

$$e_{k,l}^+ = 1 \forall e_{k,l}^- \in \left\{ \sum_{i,j} e_{(k+i),(l+j)}^- \geq n \right\}$$

otherwise

$$e_{k,l}^+ = 0 \forall e_{k,l}^- \in \left\{ \sum_{i,j} e_{(k+i),(l+j)}^- < n \right\}$$

let $n = 3$
